

# RICCARDO FILIPPELI

**Skeet Coach / Instructor**

## INTRODUCTION

---

I m Riccardo Filippelli,

Italian international shooter.

I have been training since 2008, the year in which I founded my Academy with the great Bruno Rossetti. I have trained many shooters, both Italian and foreign, and since 2022 I have started collaborations with shooters from India, Saudi Arabia, Egypt, Kuwait and UAE.

In 2024 I led Maheshwari Chauhan (India) to fourth place at the Olympics after a silver medal with an Olympic pass at the 2024 World Cup in Doha.

My philosophy is to help my athlete improve without altering his style too much and without distorting it.

I also think that technique is important, but the most important thing is the Winning Mentality, so having your life revolve around this sport and not the other way around... obsession beats talent, so work and sacrifice are fundamental.

This concept must be communicated and understood by young athletes, in fact only in this way will they become Champions and future Olympic medalists.

hope I can contribute to this with the young athletes in Asia.
