3. Rules and Regulations

The Asian Shotgun Championship will be conducted according to the actual ISSF and ASC Rules and Regulations.

Equipment control will be conducted according to the ISSF and ASC Rules and Regulations using instruments and devices approved by the ISSF.

ISSF Juries (Competition Jury, RTS Jury, Shotgun and Equipment Control Jury) will be designated by the Asian Shooting Confederation to supervise the Asian Championship. Qualified Referees holding applicable ISSF licenses will conduct the competitions.

Shotgun Equipment

All skeet athletes must have ISSF seals with serial number on their marker tapes. Any shooting vest that does not have ISSF seals on the marker tape must be submitted to Equipment Control for inspection and the affixing of a seal before the competition.

Equipment Control will be conducted according to ISSF Rules using approved, calibrated instruments. Pre-Competition testing is not mandatory; however, athletes are responsible for competing with legal equipment and clothing. All athletes are urged to submit any doubtful equipment and clothing to Equipment Control or the Shotgun Jury for checking before the competition. All athletes are subject to being selected for random testing during the competition. Athletes found to be in violation of the rules for guns or skeet marker tapes will be disqualified.

Cartridges Control

During Qualification, athletes whose cartridges are to be tested are selected by a computer draw. Between 10% and 18% of the athletes participating in an event will be selected for cartridges testing. Two (2) plus four (4) cartridges will be selected from each athlete and placed in separate labeled envelopes. The two (2) cartridges must be tested first. If both cartridges weigh 24.50g and below, no further action will be taken. If one (1) or both cartridges weigh more than 24.50g, then the four (4) cartridges in the second envelope must be tested. If the average of the six (6) cartridges weighs more than 24.50g, then the athlete must be disqualified (DSQ), in accordance with Rule 9.4.3.1 (a).

Before the Final, all finalists must be tested using the same procedure. The Finalists and their Coaches/Officials must bring, as early as possible, but not later than 30 minutes before the scheduled start of the Final (Reporting Time), all the cartridges that will be used during the Final and place them in separate Cartridges Control Boxes on the Final field of play. The Equipment Control Jury will take the necessary samples from the boxes. The boxes must be left and sealed under the supervision of a Shotgun Jury Member. Once ammunition is placed in the box, only the Equipment Control Jury or the Finalist can remove ammunition from the box. If additional cartridges are brought to a Finalist during Finals, samples from those cartridges must also be selected for testing. All cartridges' controls must be completed before the start of the Presentation of the Finalists. Any disqualified (DSQ) athlete will not be allowed to participate in the Finals.

Colored Wads

Only transparent or translucent wads with no color may be used.

If an athlete uses ammunition that is not in accordance with the ISSF Rules, then the athlete must be disqualified (DSQ).

Equipment Control

Equipment control will be open to competitors as scheduled in the Program of the competition.

The **Qatari law strictly prohibits taking firearms and ammunition to the hotel**. Upon arrival, firearms and ammunition will be transported by our officers from the airport to the Shooting Complex and back to the airport at the end of the competition.

Useful information on the carriage of Firearms on International Flights

As a rule, before issuing any flight ticket the travel agency appointed to book the flights should make sure that both ammunition and the firearms are accepted on board the aircraft till the final destination.

The Approval should appear in the electronic ticket (on the PNR Passengers Name Record) or on a separate message sent to the travel agency by the Airline Company.

The rules governing the carriage of ammunition and firearms are those of the carrier who owns the aircraft therefore, in case of flights made in codesharing, the approval must come from both companies even if on the ticket the abbreviation of only one Company appears (i.e.: AF-BA-LH-QA, etc.).

Normally, the final decision to accept firearms and ammunition on board comes from the captain/Airline Company, but once you have the “OK” on your flight ticket, the Airline Company is responsible for having your firearms sent to destination.

In case of indirect flights, it is advisable to consider a connection of at least two hours.

Upon landing at the first airport, report to the information counter and make sure that your firearms have arrived and will be taken on board the connecting flight.

Still, in case of indirect flights, avoid booking them with two different Airline Companies as most of the time the firearms will be discharged and let at the first airport and the owners will have to collect them and make a new check-in, provided the local police authorities do not cause problems of licenses. That will probably cost extra security and boarding taxes and sometimes extra baggage fees. If passengers are not informed, they risk arriving at the final destination without knowing that their firearms have not been loaded on the connecting flight and are lying in the previous airport. In many countries even if in transit and the baggage is labeled till destination, the control of firearm is made at the first airport of arrival, and this is why it is advisable to keep the situation under control step by step.

All firearms and ammunition must be declared while making flight reservations and at check-in and follow the procedure reserved for these special articles. It is a big mistake to pack them into normal bags and dispatch them as normal baggage because in case of loss it will be very difficult to find the firearm in a short time and, last but not least, owners will be liable to heavy fines.

Passengers flying Qatar Airways, carrying firearms and ammunition are required to complete the online request form through the following link:

<https://www.qatarairways.com/en-ga/help/firearms.html>
